Profile Summary

Software engineering student seeking internship/entry-level position. Passionate about coding and delivering quality work. Eager to learn from professionals and develop skills.

Professional Skills

- JavaScript
- React JS
- HTML / CSS
- Git / GitHub

Academic Coursework

- Computer Architecture
- C++
- Computer Systems
- Programming & Problem Solving

Education

Bachelor of Science in Software Engineering

Ghana Communication Technology University

Jan 2022 - Present

Work Experience

Agile Software Developer Intern | Xcelsz

Jun 2023 - Aug 2023

- Analyzed home page for mobile responsiveness and identified improvements.
- Enhanced mobile responsiveness: navigation, header, content layout, and media.
- Implemented CSS media queries for seamless user experience on various devices.
- Tested and refined mobile responsiveness using user feedback and brand guidelines.

Software Developer Trainee | GCTU

Jan 2023 - Jun 2023

- Part of a student group dedicated to learning software development with Python.
- Actively enhancing coding skills and contributing to group projects
- Gained a strong foundation in Python programming through hands-on experience.

Certifications

- Problem Solving Using Computational Thinking | University of Michigan
- Meta Front-End Developer Professional Certificate In Progress (8/9 courses completed)

Accomplishments

- Most Hardworking Head Prefect Award | Aggrey Memorial SHS, Cape Coast.
- Most Discipline Male Student: Aggrey Memorial SHS, Cape Coast.

Projects

React-based Restaurant Web App

- Contributed to user-friendly features and responsive design
- Link: <https://e-gericht.netlify.app/>

GPT3-Web-App Blog

- Prioritized responsiveness, performance, and modular code architecture.
